

**Everything you could ask for and more!**

Beginning in the fall of 2007 dealers, contractors and homeowners will have access to our new Model M – Custom Wood Sectional Garage Door. It will be of solid Mahogany in its standard format but we will also offer many other weather-proven species. We can provide doors in teak, oak, walnut and others with the intent of matching front doors, shutters and other architectural elements.

This series compliments our other carriage style door lines. Please ask about The Model T and The Plantation Series also and count on our standard 3 week production lead time!

And for the best in garage door openers, count on LiftMaster, setting the standard in quality and performance. All LiftMaster garage door openers are manufactured with the highest level of safety and monitoring systems to ensure safe operation.

With a full line of LiftMaster garage door opener accessories homeowners can create the system that matches their lifestyle.

Please contact your sales representative for more information.
