

V-1 Hybrid

C u s t o m G a r a g e D o o r s

Our new V-1 Hybrid series custom garage door is available in most sizes up to 18x10. It is an upward acting sectional garage door and comes Prepainted in White, Almond or Sandstone. Other colors are also readily available. Its design potential fits the needs of homeowners, homebuilders, architects and garage door dealers on a tight budget.

In its standard format the substrate framing components are steel and the trimwork is smooth composite. The glass, which can be clear or obscure, fits behind this smooth trimwork, which forms the window layout. Specialty glass is also available.

This model mounts on standard 2 inch tracking. Track options include, Low Headroom track, Hi-Lift track, Roof Pitch track and others. Extended Life (Hi-Cycle) springs are also available.

All of the doors produced by Garage Doors, Inc. can also be motorized. We recommend the Liftmaster brand of garage door motors. Liftmaster offers a wide range of models including their new residential jackshaft unit – Model LM8500 and LM8550 SmartPhone compatible series. See www.liftmaster.com

We stand ready to assist from the early design phase through completion. This new series is yet another unique offering

from Garage Doors, Inc. and the possibilities are endless! Please see our Model T, Model A, Plantation, V-1 Plantation, Custom Panel and Wood Panel garage doors. www.garagedoorsinc.com
