

The V-1 Steel Back

the best of both worlds

The V-1 Steel Back is a unique garage door created by applying marine mahogany paneling to a steel substrate using a proprietary process.

- Very affordable
- Marine mahogany paneling
- Insulated two-sided steel door
- Available in stain or paint grade
- Available in most standard and many custom sizes

The V-1 Steel Back series compliments our other carriage style door lines. Please ask about the Model T and Plantation series for more information.
